

Federal probe into Hunter Biden intensifies

April 04, 2022

Member and Co-Chair of the Government and Internal Investigations team **Bob Driscoll** (Washington) appeared on “On Balance with Leland Vittert” on NewsNation on March 31, 2022. He discussed the Justice Department’s investigation process and the particulars of the investigation into Hunter Biden.

The subpoena issue is a lot tougher, and that will be, I think, a Merrick Garland decision. That will be into the AG suite to decide whether or not they want to bring contempt charges against some of these people. Every case is different, and those are hard cases to bring, and the department traditionally has not brought them.
