

FinTech – Introduction and Overview

July 13, 2016

Robert Savoie presented an ABA Business Law Section “In the Know” Series webinar that focused on Financial Technology (“FinTech”) companies, including marketplace lenders, and the legal issues facing those companies. The FinTech industry has grown dramatically over the last few years. This success has brought about an increased regulatory focus at both the state and federal level.

The webinar included an overview of the FinTech industry, an explanation of the typical FinTech business model, and a high level walkthrough of the major regulatory issues facing this industry.
