

Industry Pulse: New technologies raise regulatory concerns, McGlinchey experts say

December 23, 2021

Technology advancements in the auto finance industry have been a top priority for lenders during the last two years, and regulators have also turned their watchful eyes toward the space.

Members **Kelly Lipinski** and **Mark Edelman** (Cleveland) joined Auto Finance News for an [Industry Pulse webinar](#) (subscription required) and [podcast episode](#) to discuss the regulatory concerns associated with new technologies.
