ABA Business Law Section Annual Meeting 2018
Austin, TXMember **Robert Savoie** (New Orleans) co-presented "New Computer Overlords? Responding to the Promises and Threats of Machine Learning." on Friday, September 14 during the ABA Business Law Section Annual Meeting 2018 in Austin, Texas. What happens when machines can make more accurate and insightful banking decisions but do so for reasons humans did not, and in some cases literally cannot, comprehend? Are current model risk, anti-discrimination, and other regulations designed to govern human choices appropriate for decisions made with little or no human input?
