

Opportunities and Challenges of Serving LEP Consumers

May 23, 2022

While consumers with Limited English Proficiency (LEP) represent a clear opportunity for business growth, to realize this opportunity, lenders must navigate a patchwork of often-unclear federal and state laws.

Jeffrey Barringer (Albany) will co-present “Opportunities and Challenges of Serving LEP Consumers” during the Fair Lending Track of the Mortgage Bankers Association (MBA) Legal Issues and Regulatory Compliance Conference in Miami on Wednesday, May 25, 2022. The panel will discuss some of the legal and compliance questions institutions should consider when seeking to serve consumers in their preferred language.

The MBA’s Legal Issues and Regulatory Compliance Conference is the premier event for legal and compliance professionals in real estate finance and is a source for comprehensive and up-to-date information on regulatory initiatives, recent litigation, current and upcoming legislation, and enforcement activity impacting the single-family market.
