

# PFAS Mitigation Strategies and the Regulatory Environment

October 25, 2023

**Michael Blumenthal** and **David Waxman** (Cleveland) co-presented “PFAS Mitigation Strategies” at the 2023 International Elastomer Conference in Cleveland, Ohio, on October 17, 2023. They offered insight into how companies can proactively plan for upcoming PFAS chemical regulations and reviewed concerns when preparing PFAS mitigation strategies.

Michael also participated as a panelist in a “PFAS Panel: The Regulatory Environment and Rubber” on October 18. Michael and his fellow panelists discussed the state of the regulatory environment and the impact of proposed PFAS regulations on fluoroelastomer and fluoropolymer markets.
