

Represented a major national auto lender in a broad-ranging CFPB investigation

April 06, 2016

Represented a major national auto lender in a broad-ranging CFPB investigation, which was one of the first of the waves of CFPB investigations into various market segments beginning in early 2011. Obtained a no-action letter from the CFPB. The client was the only company in that market segment that received a no-action letter.
